To Whom It May Concern:

I very much enjoy XM Satellite Radio and I'm happy to pay for the benefit of commercial free programming. Recently, my wife and I were returning to Tucson from Sedona and by dialing up channel 224, we were able to avoid a major traffic problem. I urge you to reject NAB's petition 04-160 and allow free enterprise to continue as it always should in this wonderful nation of ours.

Respectfully,  
Daniel T. Mihalyi, MD
